1. Lake Michigan Forum Conference Call—December 5, 10-11 am Central
Please mark your calendars for the next Lake Michigan Forum meeting will occur via conference call. Please invite interested parties and other potential members to join the call. More details to follow via the Bi-Weekly News report and the Monthly List Serve.

2. The Delta Institute improves communication methods

To improve information dissemination and communication between Forum participants, the Delta Institute has expanded communication channels. First, Delta has re-created the Quarterly Newsletter, which will inform you of various programs, events and opportunities around Lake Michigan. Next, Delta has developed a Bi-Weekly News report to keep you abreast of time-sensitive information. The Bi-Weekly News will be mailed during the first and third weeks of each month. Finally, Delta will be issuing a Monthly List-Serve to keep you updated on the latest news, activities and progress from around Lake Michigan and the Great Lakes.

The Delta Institute is also revamping the website, www.lkmichiganforum.org. Once complete, this website will contain comprehensive information about Lake Michigan Forum events and activities from around the Lake Michigan Basin. For suggestions and comments on the websites look and content, please contact Bill Schleizer

3. The Delta Institute brings in additional staff to work on Forum activities

The Delta Institute recently delegated some Forum responsibilities to its Michigan staff person, Todd Parker. Based from the Lansing office, Todd will be working on the Muskegon Ports Project and Forum communications. In addition to Forum responsibilities, Todd performs the carbon aggregation and pollution prevention/energy efficiency work within the state. Todd holds a Bachelors Degree in Forestry from Michigan State University and a Masters Degree in Environmental Law from the Vermont Law School. Todd can be reached at tparker@delta-institute.org or 517-482-8810.
